

## CybTouch 6 for shears

### The Intuitive Programming

World new control, with intuitive colour touch screen programming, the CybTouch 6 is intended specifically for sheet-metal cutting.

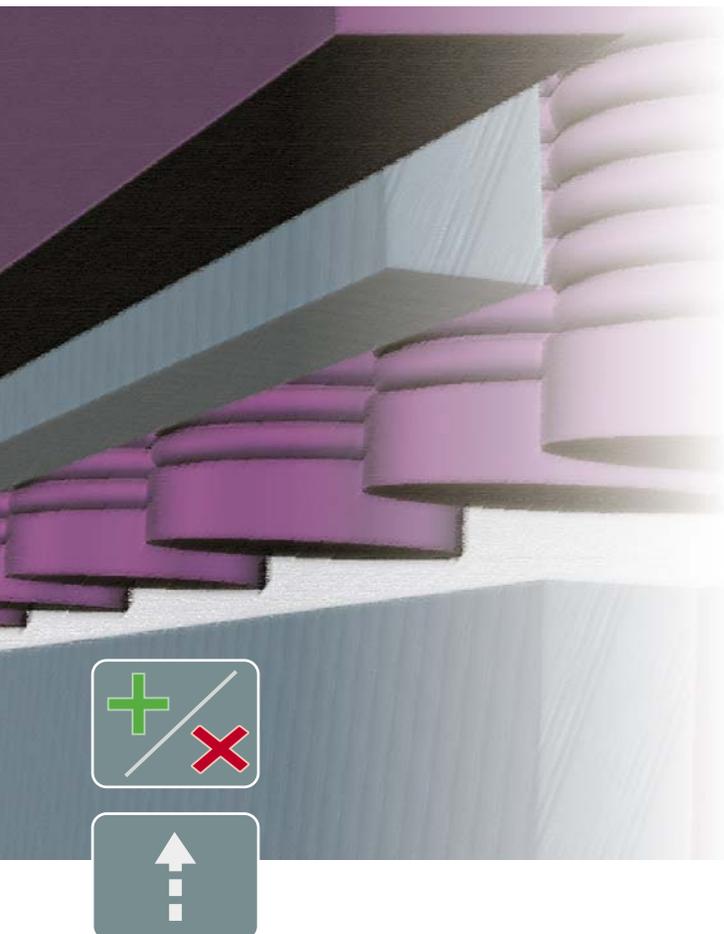

CybTouch 6 is a competitively-priced product in a robust panel-design construction.

It is a high integration of functions fitted out with a vivid high-contrast colour screen and simplified touch software with large keys.

Its software guides the operator with permanent online help and many automatic functions.

The CybTouch 6 is as simple as a "go-to control".

2 versions available: one for swing shears and one for adjustable rack angle shears.

## Easy Operating

- User-friendly:
  - Large colour touch screen for an intuitive programming.
  - Complete programming of parts in seconds.
  - Quick set up of the machine thanks to the *EasyCut* page.
